

45dB  
iCONIC

novelty

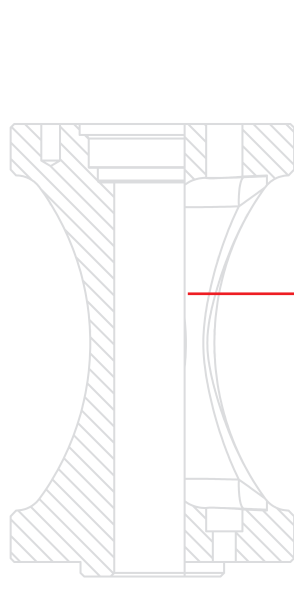

Let yourself get surprised with a silent coffee grinder,  
with low temperature grinding and a  
unique design.

45dB

With technology used in high fidelity,  
Cunill goes a step further towards  
the excellence of silence: 45dB.  
Incorporating 4 new independent  
pneumatic supporting points, we  
achieve stability without vibrations, a  
unique and unprecedented feature in  
our sector.

Cold grinding  
unique in the world.

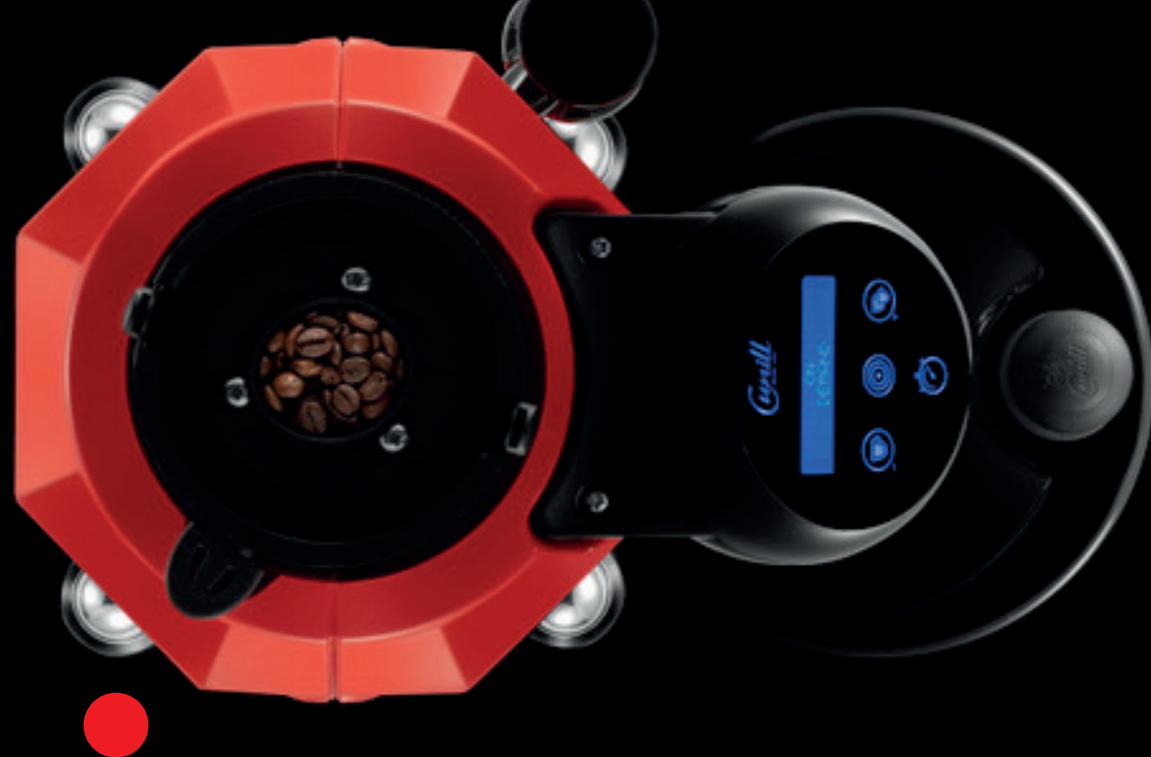

With the new temperature separator,  
we manage to keep the coffee grinding  
at room temperature so that the coffee  
properties do not get altered by the high  
temperatures produced by the motor.

Identity details.

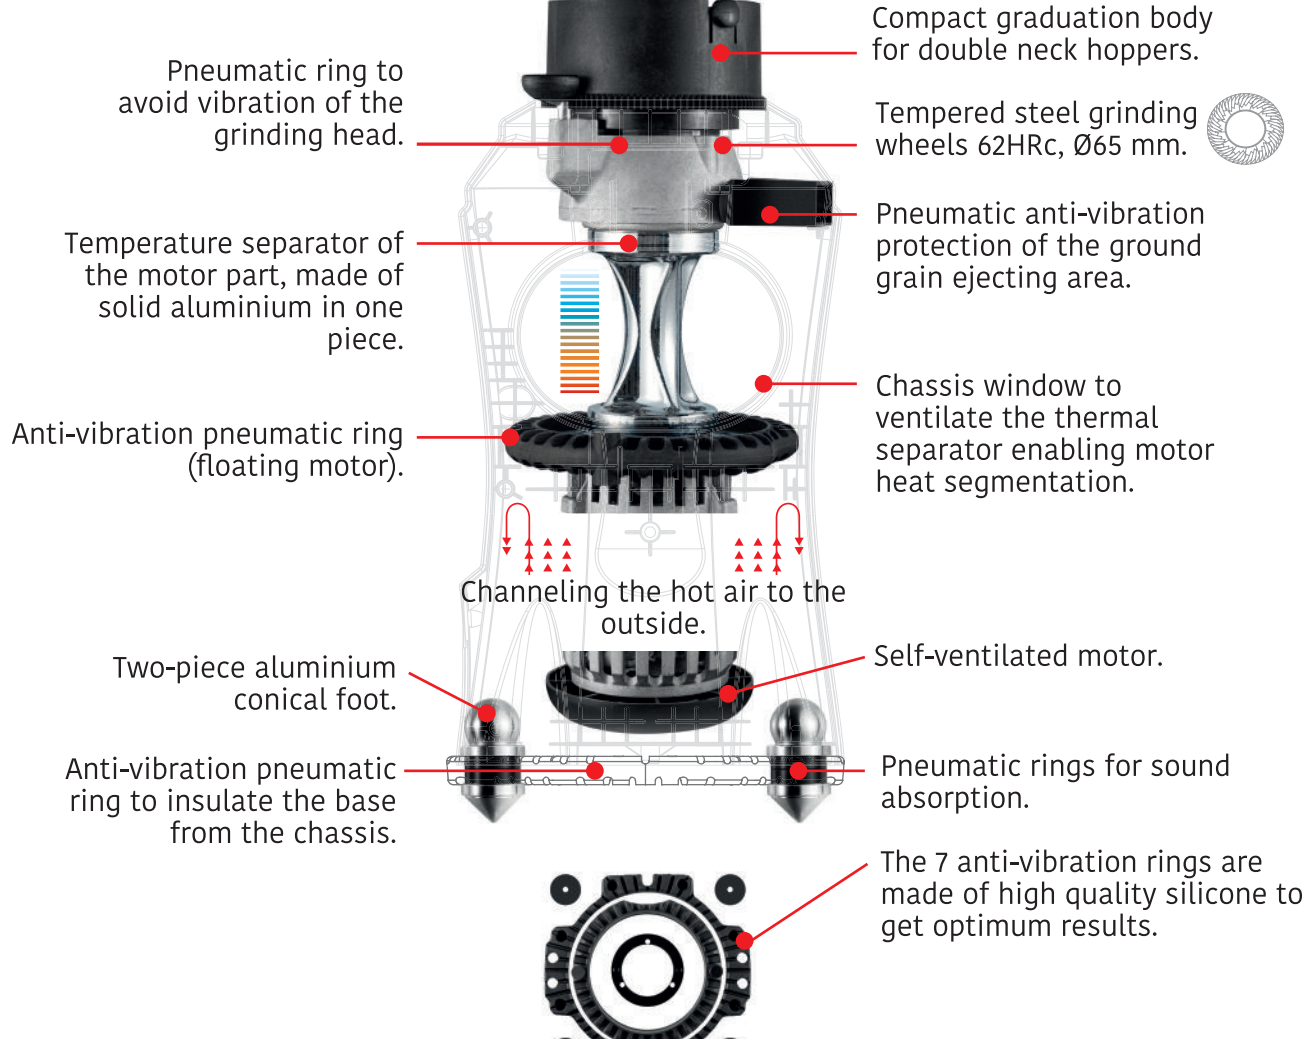

A tray that includes an anchoring for the coffee tamper with an  
exclusive design for this model.

#### ICONIC-TRON 45dB

##### TECHNICAL INFORMATION

0-500gr/5' Max 3Kg

Motor Nº 11 230V/50Hz 1,55A - 1300rpm -356W -14µf  
Motor Nº 11 220V/60Hz 1,55A - 1300rpm - 356W -14µf  
Motor Nº 11 110V/60Hz 3,9A - 1600rpm - 440W -40µf

Tempered steel grinding wheel 62 HRC ø 65mm  
With hopper of 1kg capacity  
Integrated tamper  
Multi-language touch screen  
Air noise: 45dB  
Measurements width x length x height: 285x405x626mm.  
Weight: 12Kg
